TO ALL INTERESTED ECONOMIC OPERATORS

Subject: Clarification of the Invitation to initial bid , ebp: 808/23/SK

The Seller received an enquiry with the following content from a potential bidder:

"We are interested in Tadds wagons.
Could you please send us wagon technical documentation or last workshop output protocols from revision?

We would like to know type of all wagon equipment."

The Seller's answer is as follows:

In the list of wagons, along with the date of the last revision, the locations where the interested customer can inspect the technical condition and equipment of the wagons are listed.

From the documentation in the published tender, the essential technical characteristics of the wagons can be seen (Appendix 2 a - technical description of wagons of series Tadds-z).

More detailed information about the wagons, i.e. the records of the delivery of the wagons to traffic of the last regular repairs performed, will be presented to the buyer of the wagons after concluding the contract for the sale of the wagons.

Sincerely,

Chief Executive Officer
Dragan Marčinko
